

ChiroComplete

PERFECTLY ALIGNED FOR CHIROPRACTORS

For chiropractors, the dynamic partnership of Medicfusion and InSync ushers in a new era of office efficiency and management control - a robust, integrated solution that will change your practice forever. Now the chiropractic community has a complete suite of products to meet the challenges ahead in healthcare.

MEET THE PARTNERS

Together, these companies deliver total system automation and EHR certification with unsurpassed billing and payment management - **that's ChiroComplete.**

- ▲ **Medicfusion** is a cloud-based Electronic Health Records (EHR) system designed by chiropractors that increases office efficiency, simplifies documentation and compliance, and improves the speed and accuracy of SOAP notes. Medicfusion is also HITECH-certified, a major consideration since incentive dollars are available to practices that implement a HITECH certified EHR.
- ▲ **The InSync Practice Management** solution maximizes productivity and revenue streams by reducing operational costs and increasing profitability. Favored by thousands of chiropractors across the country, InSync® brings exciting, new levels of efficiency to your office when teamed with Medicfusion.

EHR AT A GLANCE

This easy-to-use paperless EHR system fully automates your front office. Key features include:

- ▲ **CLINICAL DOCUMENTATION (SOAP notes)** patient records are created and maintained using narrative libraries that you control. Medicfusion eliminates the hassles associated with travel cards, manila folders, or hanging files.
- ▲ **TRANSCRIPTION LIBRARY** eliminates the obsolete and mundane tasks involving common medical terms specific to your practice, thus making transcription in SOAP notes speedy and accurate.
- ▲ **PATIENT PORTAL WEBSITE** a powerful tool for intake, patient payments, scheduling, charting progress and even making co-pays with a Virtual Payments engine.
- ▲ **ONLINE SCHEDULER** takes care of appointment confirmations, reminders, no-shows and more.
- ▲ **CUSTOM FORMS LIBRARY** contains over 50 commonly used forms and surveys you can quickly adapt to your practice.
- ▲ **The ePRESCRIBE MODULE** is required by the federal government to complete the Meaningful Use attestation process.

What is HITECH Certification?

A portion of the American Recovery and Reinvestment Act of 2009, widely known as the as the **HITECH Act**, the Health Information Technology for Economic and Clinical Health Act allows for incentive dollars to be distributed to eligible hospitals and providers that use "certified" EHR systems in a "meaningful way" via existing Medicare and Medicaid reimbursement systems.

PM MADE EASY

This industry-leading Practice Management system provides effective management of payments as well as financial and analytical reporting. Major benefits include:

- ▲ **AUTOPOSTING OF ELECTRONIC REMITTANCE ADVICE (ERAs)** automates and streamlines payment posting for busy office staff, while still offering a manual payment posting option.
- ▲ **EASY ENTRY AND RETRIEVAL** of patient demographics and insurance.
- ▲ **ELECTRONIC SUPER BILL CREATION MODULE** includes charges for diagnosis, services, treatments, and procedures of patients in one user friendly customizable design.
- ▲ **SIMPLIFIED CLAIM TRACKING** for easy correction and resubmission.
- ▲ **ACCOUNTS RECEIVABLE REPORTS** provide 30, 60 and 90-day data in a clear, concise format for simple review.
- ▲ **DAILY RECONCILIATION REPORTS** offer a streamlined process for users to easily manage day-to-day transactions including charges and payments.
